

PERFORMANCE REVIEW REPORT

Your name: Ahmed Rohan
Designation: DevOps Engineer
Current Salary: 20000

S r · N o.	Project name and your role	Startin g date	Ending date	Due Date	Project Status	Your contribution in the project	Reason for delay (if applicable)
1	Your Baking Connection	10 July	On-going	-	On-time	1. Deployed the project's frontend on the main server. 2. Created its pipeline. 3. Dockerized it.	
2	CryptoWidget	6 July	19 Sept	-	On-time	1. Deployed the project's frontend and backend. 2. Deployed the project's python API's. 3. Did mandatory installation of modules and assisted the developers with problems.	
3	Dynamic Data Table	13 Sept	On-going	-	On-time	1. Deployed the project's frontend and backend 2. Created its pipeline.	
4	Universal Chat App	16 Sept	On-going	-	On-time	1. Created its git structure and pushed the code to the repository 2. Created pipeline for backend and chat-backend	

S r . N o.	Project name and your role	Startin g date	Ending date	Due Date	Project Status	Your contribution in the project	Reason for delay (if applicable)
5	Flash Loan	13 Sept	18 Sept	13 Sept	Delayed	1. Deploying the project's backend to Nginx	We were facing quite a few problems with deployment.
6	SitPick	5 Sept	On-going	-	On-time	1. Deploying the project's python API's.	
7	Main Achievement	1 Sept	3 Sept	-	On-time	1. Researched on creating an All-in-one Dockerfile 2. Did the implementation and created the file.	

Areas of improvement

Some areas of improvement that I believe are cloud architecture. More hands-on experience with AWS or GCP will much improve my knowledge and expertise.

Team Lead

Saad Ahmed Khan

Project Managers

- Your Baking Connection – Zeeshan Sadiq
- Crypto Widget – Adeel Ghazanfar
- Dynamic Data Table, SitPick, Universal Chat App – Muhammad Shahbaz Sialvi

Other Employees

- Your Baking Connection – Zeeshan Sadiq, Syed Muhammad Irtaza, M Arslan Obaid
- Crypto Widget – Adeel Ghazanfar, Muhammad Bilal.
- Dynamic Data Table, SitPick, Universal Chat App – Muhammad Shahbaz Sialvi, Mehboob Alim, Saqlain Umer, Haris Abbasi.

Main Challenges Faced in last quarter

- **Dockerization:** I had not much grasped the idea of Dockerization and I came over those challenges by doing research on it and creating an All-in-One Dockerfile.
- **Projects:** Some problems required extensive R&D like with FlashLoan where I had to learn about IIS.
